**PHONE: +2348083292538**

## PROFILE

Exceptional software developer with 4+ years of experience in designing and developing websites across multiple APIs, third-party integrations, and databases. Skilled in Laravel Framework, Javascript, Python and HTML/CSS. Passionate and hardworking with a penchant for developing customized interfaces that factor in unique demands for accessibility, reachability, and security.

## SKILLS

---

- **Programming Languages and Frameworks:** Javascript, PHP, Laravel, Python, Vue JS, JQuery, Dart, Flutter, HTML, CSS, TailwindCSS, Bootstrap.
- **Infrastructure, Databases, and Tooling:** MongoDB, Linux, Git, Docker, Firebase, Postman, PostgreSQL, MySQL, NginX, and Apache, AWS.
- **Other skills:** Data Structures and Algorithms, Communication Skills, Time management, Teaming up/, Collaborating, Community building/ management.

## EXPERIENCE

---

**Terntribe Entertainment(Melodie)**

*August 2022 – Present Backend Developer*

- Designed the backend architecture (API) for the Melodie Music streaming app (yet to be published).
- Built and maintained internal software applications boosting work productivity by 35%.
- Managed servers and networks of the company reducing threats and boosting security by 72%.
- Collaborated with a multidisciplinary team of designers, developers, and system administrators.

- Executed QA testing to ensure the quality and functionality of code.

## **AlphaCode Tech (School Management System)**

*Nov 2022 – Present Backend Developer*

- Wrote and managed API resources used by front-end developers increasing team efficiency by 33%.
- Optimized SQL queries for the heavy parts of the website which improved website responsiveness by 18%.
- Handled hosting environments and assessed the efficiency and speed of applications.
- Provided code maintenance and system upgrades to maximize performance.

## **Twitter Open source**

*March 2023 – Backend Developer*

- Contributed to the twitter algorithm open source project.

## **mpesify.com**

*March 2023 – Full-Stack Developer*

- Managed the company website which led to a 22.5% increase in website traffic.
- Utilized Laravel for Backend building and JavaScript with HTML & CSS for Frontend.
- Designing the Restful API for mobile applications.

## **Credit89.com**

*March 2023 – Full-Stack Developer*

- Worked with other teams to develop but the user interface and the backend of the software.
- Utilized Laravel for Backend building and JavaScript with HTML & CSS for Frontend.

Designing

## **Geevic**

*April 2023 - Backend Developer*

- Designed, developed, and deployed the ecommerce website.
- Developed scalable modular software packages for various applications using PHP and MySQL.

## **Genesys Upskill Mentorship**

*March 2023 - Web Development Instructor*

- Trained students on backend engineering with an increase in average assessment score by 25%.
- Created and distributed educational content (notes, summaries, assignments, etc.)
- Assessed and recorded students' progress and provided grades and feedback.

## **Explore Anambra**

*April 2023 – Fullstack Developer*

- Using Laravel to write codes under the supervision of a senior engineer.
- Learnt teamwork and understood the life cycle of a software development product.
- Working on a full stack project.

## **EDUCATION**

### **NNAMDI AZIKIWE UNIVERSITY – Awka, Anambra Nigeria**

*May 2020 Bachelor of Science.*

**Relevant Coursework:** Intro to Programming; Operating Systems; Data Structures and Algorithms; Artificial Intelligence; Linear Algebra; Calculus I, II, III; Database Management.

## **PROJECTS**

Lists of projects can be found on my portfolio website or my github account. The Link can be seen above.

## **CERTIFICATION**

**Freecodecamp Data Structures and Algorithm,**

**IEEE Machine Learning Beginner Certificate,**

**Udemy 100 Days of Python**

**CISCO CYBERSECURITY CERTIFICATION**

*2023 Certificate Of Completion (CYBERSECURITY)*
